

YOUR ONLY VENDOR FOR MEDICATION MANAGEMENT IN HOSPITAL AND RETAIL PHARMACIES

موردك الوحيد لأدارة الدواء في المستشفى و الصيدلية

Efficient & Accurate Replenishment

Efficient & Accurate Dispensing

With Omnicell, you can rely on a single vendor to address medication management from the hospital to the home. Our solutions improve inventory management along with medication safety and adherence, helping to promote optimal outcomes for your patients.

Benefits of Omnicell® Automated Medication Cabinets

- Eliminates mistakes caused by manual steps and workarounds
- Tracks medications throughout the hospital in real time
- Prevents drug diversion
- Improves inventory control and reduces costs
- Creates more efficient workflow processes

"Implementing the Omnicell automated medication cabinets has given us tighter control of medications. Now clinicians have access to only the needed medications. They can also administer first dose and time-controlled medications sooner. These benefits help us improve patient care."

Bayan Darwesh, PharmD
Pharmaceutical Services Director
King Abdulaziz University Hospital, Jeddah
Kingdom of Saudi Arabia

Benefits of MACH4 Pharmacy Robotic Systems

- Improves safety by ensuring the right drug is dispensed
- Increases security of drug storage
- Increases staff efficiency by eliminating manual processes
- Delivers cost savings through improved inventory management and strong return on investment

"We have completely changed the way we have worked - within weeks of installing the robot we were able to get at least 10% more staff time on wards."

Gillian Honeywell
Chief Pharmacist
St Marys Hospital, Isle of Wight, England

Benefits of Omnicell® Medication Adherence Solutions

- Simplifies medication administration for patients—helps patients take the right pill and right dose at the right time
- Increases medication adherence, which improves outcomes and reduces costs
- Creates packaging efficiencies for your pharmacy
- Increases revenue—ability to offer adherence pharmacy services

"We have greatly appreciated the support provided by the team in making our scheme a success. Medication adherence packaging is a valuable tool and a key part of the pharmaceutical care package provided by Scottish pharmacists to vulnerable patients."

David Thompson
Director of Pharmacy for the
Greater Glasgow Primary Care Trust, Scotland
